PROFESSIONAL PROFILE

I am a highly motivated engineering professional with **+5** years of experience in the transportation industry and **+3** years of research experience in traffic engineering. My research interest includes human factors, driving simulator studies, microsimulation, traffic flow theory, and optimization frameworks considering Connected and Automated Vehicles (CAVs) capabilities. Currently, my PhD dissertation focuses on developing optimization algorithms for **real-time** applications considering CAVs at the arterial level.

EDUCATION

PhD candidate in Civil Engineering

University of Florida, GPA: 3.66

Aug. 2019 – Expected May 2023

Gainesville, FL

MS in Civil Engineering

University of Kansas, GPA: 3.89

Aug. 2017 – May 2019

Lawrence, KS

BS in Civil Engineering

Universidad Tecnologica de Panama

Mar. 2008 – May 2013

Panama, PA

RESEARCH EXPERIENCE

Graduate Research Assistant

University of Florida

Aug. 2019 – Present

- Develop optimization algorithms in Python for arterials considering CAVs capabilities
- Assist in the implementation of optimization algorithm for isolated intersections
- Facilitate the coordination of projects' activities to meet deadlines

Master's Thesis

University of Kansas

May. 2018 – May. 2019

- Conducted a driving simulator study to assess human behavior under-connected environments during discretionary lane-changing (DLC) maneuvers
- Implemented a predictive DLC fuzzy logic model in a driving simulator

SUMMARY OF RESEARCH SKILLS

- Project management, research methodology & design, participant recruitment, data collection, data management, data analysis (R, SPSS), Python (Matplotlib, CPLEX, Gurobi, Numpy, Pandas, SciPy), \LaTeX , oral presentations, Education and Public Outreach (EPO)

TEACHING EXPERIENCE

Teaching Assistant

University of Florida

Sep. 2020 – Dec. 2020

- Explained and assisted students with traffic flow theory assignments
- Created reference material to assist students to understand key concepts

Guest Lecturer

University of Florida

Sep. 2021 – Dec. 2021

- Educated on identifying deficiencies of existing signal control strategies
- Introduce CAVs concepts, discrete optimization methods, Python-programming language as a tool for developing optimization frameworks for CAVs

PUBLICATIONS

Peer-Reviewed Journals

- [1] **Guerra, A.**, L. Elefeteriadou. Platooning Trajectory Optimization for Connected Automated Vehicles in Coordinated-Arterials. *Transportation Research Record*, 2022 (under-review)

PRESENTATIONS

INDUSTRY EXPERIENCE

Highway & Traffic Consultant

May 2019 – Aug. 2019

WSP

Panama

- Provided safety assessment for roadways, interchanges, and intersections
- Developed geometric design proposals
- Conducted earthwork estimation for highway projects

Highway Engineer

Nov. 2012 – Aug. 2017

Louis Berger

Panama

- Developed geometric designs for proposal and as-built drawings for highway projects. Project portfolio comprises several projects in the Latin American region (Panama, Colombia, Honduras, and Peru) adding up to \$3 billion in construction amount
- Coordinated with different departments (geotechnical, hydraulic, and pavement) to meet deadlines
- Created digital model terrain for highway projects
- Verified slope stability analysis using the Slide-Rockscience software
- Supervised and mentored drafter team with 4 people

LEADERSHIP/INVOLVEMENT

Volunteer at the Young Member Council, TRB: Currently developing a website for the the YMC - S&R to enhance communication, and dissemination of events	2022 – Present
Co-founder of the IEEE-ITS Student Chapter: Currently leading the efforts to establish an IEEE Student Chapter focused on ITS at the University of Florida	2022 – Present
ITE University Chapter Vice President: Coordinated student seminars and <u>ITE</u> activities	2021 – 2022
Student Representative at the UFTI Internal Steering Committee: Promoted engagement activities between industry professionals and students	2020 – 2022
Media Manager at KU Fulbright Student Association: Led dissemination of activities promoted by the Fulbright Student Board, 2018	2018 – 2019

FELLOWSHIPS & AWARDS

- **Anne Brewer Academic Scholarships :** Awarded by the Intelligent Transportation Society (ITS) Florida Chapter 2022
- **Fulbright Fellowship:** Awarded by the U.S Bureau of Educational and Cultural Affairs to complete a Master's Degree at the University of Kansas 2017
- **Global Best Project in Roads and Highways:** Awarded by the ENR for the Coastal Beltway project in Panama 2015

PROFESSIONAL SOCIETIES

<u>IEEE</u> : Institute of Electrical and Electronics Engineers	2022 – Present
<u>ASCE</u> : American Society of Civil Engineers	2022 – Present
<u>ITE</u> : Institute of Transportation Engineers	2019 – Present
